Dear Ms. Scoggins,

At the request of Sequoia Voting Systems, the attached CD contains the source code for the Audio Box Unit (ABU) version 8.7.5. This is the source code that is escrowed within iBeta's configuration management system for the EAC Federal Certification Test Effort in which iBeta is the Voting System Test Lab (VSTL). This source code has been reviewed against the 2002 Voting System Standards requirements for voting code static review and there are no discrepancies.

If you have any questions, comments, or concerns, please contact me immediately.

Best regards,

A handwritten signature in blue ink that reads "Gail Audette". The signature is written in a cursive style and is set against a light blue background.
