

Hart Voting System and Election Supplies

Catalog

800-223-HART

www.hartintercivic.com

Secure. Accurate. Trusted.

Dear Customer,

We hope that this catalog provides you with an easy format for finding out more about our newest products and services and reminding yourself about all of the options you have for products, supplies, and support from Hart InterCivic.

Features of this catalog that may be of special interest to you are:

- **A “New Products” section** – We are adding supporting products and supplies daily as we develop new items that help to meet your growing needs.
- **An overview of the Hart Voting System** – The elections landscape is rapidly changing, and you are constantly looking for solutions that will help you be more efficient and better serve your voters. We offer integrated DRE, by-mail, paper in-precinct, and digital scanning solutions.
- **ElectionReady Services** – Our training, consulting and support packages are designed to help you reach and maintain the knowledge and skills you need to be independent and efficient.
- **General Election Supplies and Printing** – We offer a variety of election supplies and we are experts at printing paper ballots and more.
- **Easy Order Form** – Complete it and mail or fax it, or call.

Hart InterCivic's solid reputation for customer satisfaction and business integrity has been built through nearly a century of quality service to state and local governments. Since 1912, Hart has been a supplier of ballots and other election products, has sold and supported the Hart Voting System to over 300 counties, and has provided turnkey election services.

From ballot printing to election support, to the most effective technologies for election management, Hart InterCivic's name stands for exceptional expertise, absolute accessibility, and trusted transactions.

New Products from Hart InterCivic

The Hart Voting System

Election Management Software

Hart's software applications include:

- eCM Manager to create digitally encrypted security files
- Ballot Origination Software System (BOSS) to create ballot styles and media
- Ballot Now paper ballot management software for printing, scanning, and adjudication
- Tally for fast, accurate tabulation
- SERVO for secure equipment management and backup protection

Polling Place Devices

eScan

The eScan is a precinct-based digital scanner that quickly scans a voter's paper ballot. If ballots have contests that are marked incorrectly, the eScan displays instruction messages so that voters have an opportunity to correct mismarks before casting their ballot.

eSlate and DAU eSlate

The eSlate voting machine allows voters to cast electronic ballots by turning a rotary SELECT wheel and pressing an ENTER button. Specially modified Disabled Access Unit (DAU) eSlates also allow voters with disabilities to use headphones or other adaptive devices to vote privately and independently.

eSlate voting machines can also be deployed with the Verifiable Ballot Option (VBO), which allows voters to review a printed paper record before casting their ballots.

Judge's Booth Controller (JBC)

The JBC is the control unit for the eSlate polling place system. Polling place officials use the JBC to issue electronic ballots to voters, and it also serves as the eSlate system ballot box.

ElectionReady Services

Are You Ready? We Can Help.

As election administration becomes increasingly complex, there may be times when you would like extra support from people you trust. Hart InterCivic can help you achieve success with the ElectionReady family of professional services for Hart Voting System users.

Training

ElectionReady Training is a valuable investment in greater independence for your election administration team. We offer a variety of courses for small and large customers alike, including hardware, software, and election workflow.

Election Day Support

We can provide onsite support from a Hart technician for your Election Day needs. We can assist with:

- Equipment preparation and deployment
- Polling Place troubleshooting
- Help Desk functions
- Reporting
- Post-election processing

Training Consultation

Our expert trainers can help you to build, review, or enhance a customized training curriculum for your jurisdiction.

NEW! Security and Audit Consultation

Subject to the provisions of your state and local code, our expert trainers can teach you how to perform a review of your jurisdiction's election security procedures and how to perform random audits of election results from your Hart Voting System.

Ballot Production Service

Our ballot production team provides superior ballot programming and printing services for Hart Voting System customers. We can put our expertise to work for you, with either paper or electronic ballots.

NEW! Onsite Protection Plan

The ElectionReady Onsite Protection Plan is a suite of best housekeeping practices and diagnostic tests to identify and prevent problems before your election. Subscribers to the plan enjoy regular visits from a Hart technician. We sweat the details. You run the election.

Election Supplies and Printing

Dedicated to Meeting Your Needs

Hart InterCivic is dedicated to being your one-stop source for all of your Elections Needs. We stock a wide variety of election supplies and security paper. We print ballots and forms. We work closely with state agencies to ensure that our forms and other materials are compliant with local election law.

Hart Voting System Software Summary

Hart Voting System software offers complete election management to our customers.

Our basic software suite includes BOSS, Ballot Now, Tally and SERVO, which enables customers to create ballot formats, print and scan ballots, tabulate results, and back up equipment.

Additional software includes Rally, for remote electronic transfer of results to the central count station, and Fusion, Infusion, TAG, TRACK, and SCORE for data integration, tracking, and customized reporting.

Product Name	List Price
BOSS (Ballot Origination Software System) - The HVS ballot generation software	Call
Ballot Now Server - Paper ballot printing, digital scanning, and resolution software	Call
Ballot Now Client - Paper ballot image processing and resolution software	Call
Ballot On Demand - VR/Electronic Poll Book integration with Ballot Now and eSlate ballots	Call
Tally - Tabulation and reporting software	Call
Rally - Satellite station MBB reading and transfer to Tally	Call
SERVO (System for Election Records and Verification of Operations) - For backup, recovery, and voting hardware audit logs viewing and printing	Call
Fusion - Results data integration and customized tabulation reporting	Call
Infusion - Enables formatting of election data for import into BOSS	Call
TAG - Asset management tracking for your election products	Call
TRACK - Allows voters to confirm the processing of their Ballot Now paper ballot via the web	Call
SCORE - Web-based election results reporting and display	Call
Custom Software Services	Call

Scanners – eScan and Ballot Now Scanners

eScan – Hart’s digital ballot-imaging unit for polling place voting. It is fully integrated with the other components of the Hart Voting System. The eScan uses paper ballots produced by the Hart Voting System Ballot Now software and stores votes on an election-specific flash memory card as Cast Vote Records.

Scanners for Ballot Now – Connect a scanner to the Ballot Now computer to image ballots and store votes on an election-specific flash memory card as Cast Vote Records. High and low-volume scanners available. Call for models and pricing.

Judge's Booth Controller (JBC)

The polling place control console that manages as many as 12 eSlate voting units. Using election data on a PC memory card called a Mobile Ballot Box (MBB), the JBC delivers to the individual eSlate units the information necessary to display electronic ballots. The JBC also prints random four-digit Access Codes to regulate voters' ability to view and vote the eSlate ballots.

Software Manuals and Poll Worker Training Media

To fill printed materials orders, the following questions need to be answered. See Order Form on page 23.

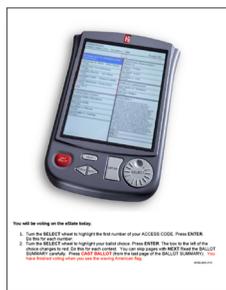

1. What Part Name are you ordering?
2. What HVS system version will you be using in this election?
3. Are you eSlate-only or eSlate-and-eScan (eSlate + eScan = Hart Voting System or HVS)?
4. Are your ballots multi-lingual or English-only?
5. Does your equipment have the VBO (paper audit trail) or not?
6. What type of election is this for (General, Primary, or Special)?

Service Pricing

As election administration becomes increasingly complex, there may be times when you would like extra support from people you trust. Hart InterCivic can help you achieve success with the ElectionReady family of professional services for Hart Voting System users.

ElectionReady Service	Price												
Training Software and hardware training for the Hart Voting System	\$2,000 per day Call for detailed quote												
Support Election Day onsite support	\$6,000 Flat fee												
Training Consultation Assistance creating a customized training curriculum for your jurisdiction	\$2,000 per day Call for detailed quote												
Security and Audit Consultation We teach you how to perform a security review and random audits of election results	\$2,000 per day Call for detailed quote												
Ballot Production Service Ballot programming and printing services for electronic and paper ballots. Ballot Production Service Prices include ballot layout, audio, proofs, programming and up to 1,000 printed ballots. Local entities contracting or coordinating individually are priced individually, as separate elections. These entities are invoiced directly, but can be invoiced to the County if requested.	<table border="1" data-bbox="812 955 1218 1239"> <thead> <tr> <th># Races</th> <th>Minimum* Price</th> </tr> </thead> <tbody> <tr> <td>1-10</td> <td>\$2,300</td> </tr> <tr> <td>11-20</td> <td>\$3,000</td> </tr> <tr> <td>21-40</td> <td>\$3,800</td> </tr> <tr> <td>41-75</td> <td>\$4,800</td> </tr> <tr> <td>76-100</td> <td>\$5,700</td> </tr> </tbody> </table> <p>* Contact the BPS Customer Service Manager for details on pricing for your state.</p>	# Races	Minimum* Price	1-10	\$2,300	11-20	\$3,000	21-40	\$3,800	41-75	\$4,800	76-100	\$5,700
