Extension of Provisional Certification of WinEDS 4.0

The provisional certification of the "*WinEDS 4.0 Voting System*" for use in Washington State has been in effect since June 2, 2008, when Pierce County Auditor Pat McCarthy requested an emergency certification to conduct a Rank Choice Voting election required by Pierce County charter law. The state certification of the nationally approved product will go into effect on Mar 4, 2013, but Washington State counties may need more time with the provisionally certified product before upgrading to the nationally approved product or moving to another product.

On this date the Office of the Secretary of State hereby extends the provisional certification of "*WinEDS 4.0 Voting System*" for use by counties in the State of Washington when used in compliance with Washington State law.

This provisional certification expires July 31, 2014.

Certified on this Mar 4, 2013

Kim Wyman
Secretary of State
