

# System Improvements

September 17, 2013

Application	Location	Description
MyVote	Identification	Replaced captcha with a simplified, higher contrast version.
MyVote	Identification	System recognizes zero or '0' when a voter enters a driver license number.
MyVote	Identification	Allows for entry of name suffix in Address Change and Online Voter Registration.
MyVote	PersonalInfo	When a voter only changes the residential address, the mailing address is not deleted.
MyVote	PersonalInfo	When entering a mailing address, the system requires the voter to select country first.
MyVote	PersonalInfo	Street address expanded to 30 characters.
MyVote	PersonalInfo	Reformatted personal information screen.
MyVote	PersonalInfo	Allows ampersand in address.
MyVote	Review	Edit button on review screen works properly (doesn't delete information).
MyVote	Review	Reformatted the Personal Information, Review and Confirmation screens.
MyVote	BallotStatus	Allows counties to add county-specific text/link.
MyVote	BallotStatus	Display the current election name.
MyVote	BallotStatus	Localize Ballot Status to only voters in a specific election.
MyVote	DropBox	Location details appear in Ballot Drop Box Locations area of MyVote regardless of whether the auditor's office box is checked or unchecked.
MyVote	DropBox	Display and navigation issues corrected on the "ballot drop boxes & voting centers" page.
MyVote	MyVRInfo	Remove display of ballot delivery method. It is incorrect because that information is not stored in VRDB.
MyVote	MyVRInfo	Display precinct name and code (if different).
MyVote	Translations	Added language tags throughout MyVote to allow for translations.
MyVote	Translations	Allows for the proper display of accent marks.
WEI Admin	CurrentElection	Allows counties to add county-specific text/link.
WEI Admin	Candidates	Downloads statements from the correct election.
WEI Admin	HelpDesk	OSOS can turn off MyBallot for all counties.
