

Press Release

Logic and Accuracy Test

In accordance with WAC 434-335, a Logic and Accuracy test will be conducted on the Ferry County Disabled Access Units and vote counting equipment. The test will be held in the Ferry County Elections Office inside the Courthouse in the basement at 2:00 p.m., Wednesday, April 13, 2016. The programming of the Disabled Access Units will be tested.

At the time a “test deck” of ballots will be run through the vote tabulating equipment. The test is designed to check the ballots tabulating and precinct programming.

The test is open to the public but space is very limited.
