Report Descriptions

Option 1 & 2	Voter List includes data such as voter ID number, voter name, residential and mailing address, precinct, registration date and elections voted. Voter lists can be requested countywide or for a specific district.
Option 3	Newly Registered Voter List includes newly registered voters from the time the County initially mails ballots through the in-person registration cutoff date.
Option 4	Walking List is a specific report that comes in Adobe PDF format only. It can be requested for a specific district and is ordered by precinct number and street address. This report is primarily used by candidate and campaigns to “walk the district.”
Option 5	Daily Added Voters is a computer file or printed mailing labels of voters added each day prior to an election.
Option 6	Mailed / Returned Ballot (Matchback) List is a list of voters that have been mailed ballots and information about whether or not their ballot has been returned. Fields include voter id number, issue date, return date, and precinct. Matchback files are available beginning eighteen days prior to the election and ending on the Friday after Election Day. A cumulative file will be sent on certification day.
Option 7	Challenged Ballot List is a list of ballots currently challenged during the signature verification stage of returned processing. Please note that just because a person’s name appears on this list it cannot be assumed that their ballot will not be counted.

All files are in tab delimited format unless specified by in #3 of the order form or other arrangements have been made. Basic instructions and data field descriptions come with all orders. Data is only current as of the time the report is run and is subject to change based on normal voter registration and election activities.
