Our opinion on the County’s financial statements and compliance with federal grant program requirements is provided in a separate report, which includes the County’s financial statements. That report included a finding relating to the County’s internal controls over financial reporting.

We evaluated internal controls and tested compliance with the federal program requirements, as applicable, for the County’s major federal program, which is listed in the Federal Summary section of the financial statement and single audit report.

ABOUT THE AUDIT

This report contains the results of our independent accountability audit of Grays Harbor County from January 1, 2011 through December 31, 2011.

We evaluated internal controls and performed audit procedures on the activities of the County. We also determined whether the County complied with state laws and regulations and its own policies and procedures.

In keeping with general auditing practices, we do not examine every transaction, activity or area. Instead, the areas examined were those representing the highest risk of noncompliance, misappropriation or misuse. The following areas were examined during this audit period:

- Open public meetings
- General revenue and expenditures
- Controls over significant accounting systems
- Financial condition
- Cost allocation/interfund transactions
- Use of restricted funds
- Collection of forfeited bail bonds
- Assessor’s Office
- Contract compliance
- Key software applications
- Fuel cards

RESULTS

In most areas, the County complied with state laws and regulations and its own policies and procedures.

However, we noted certain matters that we communicated to County management. We appreciate the County’s commitment to resolving those matters.

**AUDIT HISTORY**

We audit the County annually. The prior audit reported an accountability finding for its declining financial condition. Although the County has improved its financial condition, we have communicated concerns to management in this area.
The status of findings contained in the prior years’ audit reports of the County is provided below:

1. The County has experienced declines in tax revenue and has not effectively reduced costs, resulting in its financial position continuing to decline.

   Report No. 1006999, dated January 3, 2012

**Background**

The County’s General Fund ending cash balance as of August 31, 2011, was $1,804,880. This balance would cover approximately 40 days worth of operating expenses.

The County’s General Fund expenditures exceeded revenue in two of the prior three years, attributing to the decline in ending cash balances:

In August 2009, the County Commissioners approved a $2 million inter-fund loan from the Landfill Post-Closure Fund to the General Fund to cover short-term cash flow needs. The County paid off the $2 million inter-fund loan in full in 2010. In 2011 the Commissioners approved another $1 million inter-fund loan from the Landfill Post-Closure Fund to General Fund to cover short term cash flow needs.

The County projected a 2011 year-end cash balance of $1,929,394. This projection includes paying off the $1 million inter-fund loan, and an additional $360,000 in Forest Excise Tax that was received in November 2011. The County intends to take another inter-fund loan in 2012.

**Status**

The County has improved its financial condition. However we communicated concerns to management in this area. We will review the County’s progress on this issue during the next audit.
ABOUT THE STATE AUDITOR'S OFFICE

The State Auditor's Office is established in the state's Constitution and is part of the executive branch of state government. The State Auditor is elected by the citizens of Washington and serves four-year terms.

Our mission is to work with our audit clients and citizens as an advocate for government accountability. As an elected agency, the State Auditor's Office has the independence necessary to objectively perform audits and investigations. Our audits are designed to comply with professional standards as well as to satisfy the requirements of federal, state, and local laws.

The State Auditor's Office employees are located around the state to deliver services effectively and efficiently.

Our audits look at financial information and compliance with state, federal and local laws on the part of all local governments, including schools, and all state agencies, including institutions of higher education. In addition, we conduct performance audits of state agencies and local governments and fraud, whistleblower and citizen hotline investigations.

The results of our work are widely distributed through a variety of reports, which are available on our Web site and through our free, electronic subscription service.

We take our role as partners in accountability seriously. We provide training and technical assistance to governments and have an extensive quality assurance program.
