General Election of November 8 2011
Report to the Canvassing Board at Certification

1. The equipment used to tabulate the ballots consists of the HART scanner and software. This system is certified for use in Washington State by the Secretary of State. The programming for this election was done by the election department. A logic and accuracy test was performed.
2. All ballots were stored and locked in a secure area, both prior to the election and afterward.
3. All absentee ballots were processed according to statute. Experienced staff verified all signatures.
4. All ballots believed eligible for counting have been counted. We encountered no machine problem.
5. Results were reviewed for anomalies by Anne LaCour, Chief Deputy Auditor.
6. The abstract report contents were checked to be sure of the following:
 - a. That the precinct count was included on the report.
 - b. That the report included the precinct count in the total at the bottom of the page.
7. There were unusual ballots that were brought to the attention of the canvassing board being no signatures, postmarked too late, mismatched signatures, cancelled voters.
8. After ballots were mailed, we discovered that the voters on Roberts Pond Road were issued inaccurate ballots due to the exception to the School District boundaries. Supplemental ballots were immediately issued, and voters were advised that they were ineligible to vote in the Oak Harbor School District, but were eligible to vote in the Coupeville School District, as well as the North Whidbey Parks and Recreation District. We immediately marked all of the voters' records so that the ballots could be segregated. However, two of the voters involved had already voted and their ballots could not be retrieved. The remainder of the Roberts Pond voters were segregated and their ballots duplicated so that the accurate races and measures were counted.
9. After ballots were mailed, we discovered that six voters on Swantown Rd. were incorrectly designated as being inside of the city limits of Oak Harbor when they were in fact outside of the city limits. Replacement ballots were immediately issued to the voters in question and the voters were advised as to their eligibility. Their records were marked in order to segregate the ballots in order to insure that the voters only voted in eligible races..
10. Ballot count reconciliations were performed.
